STATEMENT OF THE BOARD OF MANAGEMENT

The Board of Management of Bim Son Cement Joint Stock Company ("the Company") presents this report together with the Company's separate financial statements for the year ended 31 December 2025.

THE BOARD OF DIRECTORS AND MANAGEMENT

The members of the Board of Directors and Management of the Company who held office during the year ended 31 December 2025 and to the date of this report are as follows:

The Board of Directors

Mr. Le Huu Ha	Chairman
Mr. Le Huy Quan	Member
Mr. Nguyen Minh Duc	Member
Mr. Nguyen Truong Thu	Member
Mr. Ngo Duc Viet	Independent Member
Ms. Le Thi Khanh	Independent Member

The Board of Management

Mr. Le Huy Quan	Acting General Director
Mr. Pham Van Phuong	Deputy General Director
Mr. Nguyen Chi Thuc	Deputy General Director
Mr. Nguyen Sy Cuong	Deputy General Director

THE BOARD OF MANAGEMENT'S RESPONSIBILITY

The Board of Management of the Company is responsible for preparing the separate financial statements for the year ended 31 December 2025, which give a true and fair view of the financial position and the results of operations and the cash flows of the Company for the year. In preparing these financial statements, the Board of Management is required to:

- Comply with Vietnamese Accounting Standards, Corporate Accounting System and the relevant statutory requirements applicable to the preparation and presentation of the separate financial statements.
- Select suitable accounting policies and then apply them consistently.
- Make judgments and estimates that are reasonable and prudent.
- State whether applicable accounting principles have been followed, subject to any material departures disclosed and explained in the financial statements.
- Design and implement an effective internal control system for proper preparation and presentation of the financial statements to minimize errors and frauds; and
- Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the separate financial statements comply with Vietnamese Accounting Standards, Corporate Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements. The Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

The Board of Management confirms that the Company has complied with the above requirements in preparing these separate financial statements.

For and on behalf of the Board of Management,

Le Huy Quan
Acting General Director
Thanh Hoa, 10 March 2026

No. 65 /2026/BCKT-AVI-TC1

INDEPENDENT AUDITORS' REPORT

To: **The Shareholders,
The Board of Directors, and Board of Management
Bim Son Cement Joint Stock Company**

We have audited the accompanying separate financial statements of Bim Son Cement Joint Stock Company (hereinafter referred to as "the Company"), prepared on 10 March 2026, from page 04 to page 29, which comprise the balance sheet as at 31 December 2025, and the statement of income, statement of cash flows for the year ended 31 December 2025 and notes to the separate financial statements.

Management's Responsibility

Management is responsible for the preparation and fair presentation of the separate financial statements in accordance with Vietnamese Accounting Standards, Corporate Accounting System and the relevant statutory requirements applicable to the preparation and presentation of financial statements and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amount and disclosures in the financial statements. The selected procedures depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditors' Opinion

In our opinion, the accompanying separate financial statements give a true and fair view of, in all material aspects, the financial position of the Company as at 31 December 2025, and of the results of its operations and its cash flows for the year then ended, in accordance with Vietnamese Accounting Standards, Corporate Accounting System and the relevant statutory requirements applicable to the preparation and presentation of the financial statements.

Other Matter

The Company's separate financial statements for the year ended 31 December 2024 were audited by another audit firm, which expressed an unmodified opinion thereon.

1. GENERAL INFORMATION**1.1. Structure of ownership**

Bim Son Cement Joint Stock Company (the "Company") was established and operates under Business Registration Certificate No. 2800232620 issued by the Department of Finance of Thanh Hoa Province (formerly the Department of Planning and Investment of Thanh Hoa Province) for the first time on 1 May 2006, and subsequently amended for the 19th time on 11 August 2025.

The Company's charter capital as stated in the Business Registration Certificate is VND 1,232,098,120,000, divided into 123,209,812 shares with a par value of VND 10,000 each. The Company's shares are traded on the Hanoi Stock Exchange under the stock code BCC.

The number of employees of the Company as at 31 December 2025 was 1,128 (as at 31 December 2024 was 1,135).

1.2. Operating and principal activities

The principal activities of the Company include:

- Manufacturing, trading, importing and exporting cement and clinker.
- Manufacturing, trading of other types of construction materials.
- Construction of civil, industrial, transportation, irrigation works and infrastructure projects.
- And other business activities in accordance with the Enterprise Registration Certificate.

1.3. Normal business cycle

The Company's normal course of business cycle is no more than 12 months.

1.4. Corporate structure

The Company's organizational structure includes its head office located at Residential Group No. 7, Bim Son Ward, Thanh Hoa Province, and two (02) dependent accounting units as follows:

Unit	Address	Main activities
1. Cement Distribution Enterprise	Bim Son Ward, Thanh Hoa Province	- Distribution of cement and clinker
2. Bim Son Cement Joint Stock Company - Quang Tri Branch	Nam Dong Ha Ward, Quang Tri Province	- Cement grinding and packaging

As at 31 December 2025, the Company had one subsidiary, Central Region Cement Joint Stock Company, which was established and operates in accordance with Enterprise Registration Certificate No. 0101894730 issued by the Department of Planning and Investment of Quang Ngai Province, initially dated 20 March 2006 and amended for the 17th time on 22 March 2022. The principal activity of this subsidiary is cement manufacturing and processing. Its head office is located in Tan Hy Hamlet, Van Tuong Commune, Quang Ngai Province.

2. ACCOUNTING YEAR AND ACCOUNTING CURRENCY

The Company's accounting year starts on 01 January and ends on 31 December.

The currency unit used in accounting period: Vietnam Dong (VND).

3. ACCOUNTING STANDARDS AND ACCOUNTING SYSTEM APPLIED

The financial statements are performed in Vietnamese Dong (VND) and prepared under the accounting principles in conformity with the Corporate Accounting System issued in pursuance of Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 of Ministry of Finance, Vietnamese Accounting Standards, and the relevant statutory requirements applicable to financial reporting.

Information on Changes in the Corporate Accounting Regime

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC ("Circular 99") providing guidance on the Vietnamese Accounting System for Enterprises, replacing Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016 of the Ministry of Finance, and certain other related circulars. Circular 99 comes into effect from 01 January 2026 and is applicable to financial years beginning on or after 01 January 2026. The impact of the adoption of the Vietnamese Accounting System in accordance with the guidance under Circular 99 on the Company's accounting records and financial statements as at 01 January 2026 will be determined in accordance with the guidance on the conversion of accounting balances and the transitional provisions stipulated in Circular 99 and Vietnamese Accounting Standard No. 29 - "Changes in Accounting Policies, Accounting Estimates and Errors".

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted by the Company in the preparation of these financial statements are as follows:

4.1. Basis of preparation of financial statements

The financial statements are prepared on the accrual basis (except for the information related to cash flows), under historical cost principle, based on the assumption of going concern.

4.2. Estimates

The preparation of financial statements in conformity with Vietnamese accounting standards, the corporate accounting system and the statutory requirements relevant to the preparation and presentation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. The actual number incurred may differ from the estimates and assumptions.

4.3. Cash and cash equivalents

Cash reflects the full existing amount of the Company at the end of the accounting year, comprising cash on hand, demand deposits and cash in transit.

Cash equivalents include short-term investments with maturity less than 03 months since the date of investment, which can be converted easily into a certain amount of cash without any risk in conversion into cash at the reporting date and recorded following Vietnamese Accounting Standard No. 24 - Cash flow statement.

4.4. Conversion of foreign currency

During the year, transactions arising in foreign currencies are translated into VND at exchange rates ruling at the transaction dates or accounting book exchange rate. Foreign exchange differences arising from these transactions are recognized in financial income (if gain) and financial expense (if loss). Monetary items denominated in foreign currencies are translated using exchange rate ruling at the balance sheet date. Foreign exchange differences arising from revaluation are reflected in the foreign exchange rate differences account and the balance of this account is transferred to the financial income (if profit) or financial expense (if loss) at the end of the accounting year.

4.5. Receivables and provision for doubtful debts

Receivables are monitored detailedly under the original terms, remaining terms at the reporting date, the receivable objects, receivable foreign currencies and other factors for the Company's management purpose. The classification of receivables is trade receivables, other receivables shall comply with the principles:

- Trade receivables include commercial receivables incurred from purchase-sale transactions, including receivables from sale of exported goods under the trust of other entities.
- Other receivables include non-commercial or non-trading receivables, including receivables from loan interests, deposit interests, amount paid on behalf of another party; receivables which the export

trustor must collect from the trustee; receivables from penalties, compensation; advances; pledges, collaterals, deposits, assets lending...

The company bases on the remaining term at the reporting date receivables to classify as long-term or short-term.

Receivables are recognised not exceeding the recoverable value. Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in difficulty of solvency due to dissolution, bankruptcy, or similar difficulties in accordance with the prevailing Corporate accounting system.

4.6. Investments in subsidiaries

Reflecting the investments which the Company holds more than 50% voting rights and the right to control and govern the financial and operating policies of the investee (subsidiary) to gain economic benefits from the operation of such enterprise.

4.7. Inventories

Inventories are stated at a lower cost and net realizable value. Cost comprises direct materials and where applicable, direct labor costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. The net realizable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling, and distribution. Inventories are accounted according to the perpetual method.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

4.8. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. Tangible fixed assets are recognized under the historical cost.

The original costs of tangible fixed assets from purchase comprise their purchase prices actually paid and any directly related costs to be paid by the time putting the fixed assets into a state of readiness for use. The primary price of fixed assets due to capital construction is formed by the method of contractor appointment or to be built or produced by themselves is the settlement price of the construction as prescribed in the current Regulations on management of investment and construction plus (+) other directly related costs, and registration fee (if any). In case the fixed assets due to construction are put into use but have not been finalized, the enterprises shall record the primary price by the provisional price on the basis of the actual expenses spent to acquire the fixed asset and adjust after settlement of completed works.

Costs incurred after initial recognition are recorded as an increase in the historical cost of assets if they actually improve the current status in comparison with the initial standard status of the assets.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives or net book value over the remaining useful lives in accordance with Circular No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance. The estimated useful lives are as follows:

	Years
Buildings and structures	05 - 30
Machinery and equipment	02 - 20
Motor vehicles	06 - 10
Office equipment	03 - 10
Other fixed assets	03 - 25

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognized in the income statement.

4.9. Intangible assets and amortisation

Intangible assets include land use rights and computer software, which are presented at cost less accumulated amortisation.

The land use rights represent the long-term land use rights granted in Thanh Hoa Province, Nam Dinh Province (currently Ninh Binh Province), and Hanoi City, based on decisions issued by the People's Committees of the respective provinces and cities, as well as land use right transfer agreements. Long-term land use rights are not amortised.

Computer software is initially recorded at purchase cost and amortised on a straight-line basis over its estimated useful life, ranging from 3 to 8 years.

4.10. Construction in progress

Properties in the course of construction for production, rental, and administrative purposes or other purposes are carried at cost. The cost includes any costs that are necessary to form the asset including construction cost, equipment cost, other directly attributable costs in accordance with the Company's accounting policy. Such costs will be included in the provisional costs of the fixed assets (if settled costs have not been approved) when they are put into use.

According to the State's regulations on investment and construction management, depending on the management decentralization, the settled costs of completed construction projects are subject to approval by the appropriate levels of competent authorities. The final costs of these completed construction projects may vary depending on the final approval by competent authorities.

4.11. Prepayments

Prepayments comprise actual expenses that have been incurred but relate to the business performance of multiple accounting periods. Prepayments expenses comprise: consumable materials; major repair expenses; mineral mining right fees; mine development expenses; and other prepaid expenses, etc.

- Consumable materials (including refractory bricks, grinding balls, heat-resistant concrete, etc.) are capitalized as prepaid expenses. These consumable materials are gradually amortized to the income statement based on the duration of their use in production and business activities in each accounting period in accordance with prevailing regulations.
- Major repair expenses; mineral mining right fees; mine development expenses; and other prepaid expenses are capitalized as prepaid expenses and amortized to the income statement on a straight-line basis in accordance with prevailing accounting regulations.

4.12. Payables

The payables are monitored detailed under the original terms, the remaining terms at the reporting date, the payable objects, type of payables denominated in foreign currency and other factors according to the Company's management purpose. The classification of payables such as trade payables, other payables must be implemented the following principles:

- Trade payables include commercial payables incurred from purchase-sale transactions, including payables when imported goods under the trust.
- Other payables include non-commercial or non-trading payables, including: payables for loan interest, payables for financial investments; amount paid for the third party; amount which the trustor receives from relevant parties to pay under the entrusted import-export transactions; asset borrowings; payables for penalties, compensation; surplus assets without reason; payables for social insurance, medical insurance, unemployment insurance, trade union; collaterals, deposits received, etc.

The company bases the remaining terms of payable at the reporting date to classify as long-term or short-term.

The payables are recorded not less than the payment obligations. In the case of evidence that a loss likely occurs, the Company recognizes immediately a payable under the precautionary principle.

4.13. Accrued expenses

Accrued expenses are recognised based on reasonable estimates of the amounts payable for expenses incurred, and goods or services consumed during the period for which invoices or sufficient supporting accounting documents have not yet been received.

4.14. Provisions

Provisions are recognised only when all of the following conditions are satisfied:

- The Company has a present obligation (legal or constructive) as a result of a past event.
- It is probable that an outflow of economic benefits will be required to settle the obligation; and
- A reliable estimate can be made of the amount of the obligation.

Provisions are recognised based on the best reasonable estimate of the expenditure required to settle the present obligation as at the end of the accounting period.

4.15. Loans and finance lease liabilities

The loans and finance lease liabilities are monitored detailed for each loan object, loan agreement, and loan asset; for the term of loan and finance lease liabilities and type of foreign currency (if any). The loans and finance lease liabilities with the remaining term more than 12 months from the reporting date are presented as long-term loans and finance lease liabilities. The due loans and finance lease liabilities within the next 12 months from the reporting date are presented as short-term loans and finance lease liabilities.

4.16. Revenue recognition

Revenue from the sale of goods shall be recognized if it simultaneously meets the following five (5) conditions:

- The company has transferred the majority of risks and benefits associated with the right to own the products or goods to the buyer.
- The company no longer holds the right to manage the goods as the goods owner, or the right to control the goods.
- Revenue has been determined with relative certainty. When contracts define that buyers are entitled to return products, goods purchased under specific conditions, enterprises shall only record turnovers if such specific conditions no longer exist and buyers are not entitled to return products, goods (unless the customer is entitled to return the goods under the form of exchange for other goods or services).
- The company has gained or will gain economic benefits from the good sale transaction; and
- It is possible to determine the costs related to the goods sale transaction.

Revenue from financial activities includes interest income from deposits and loans; interest on deferred sales; settlement discounts; dividends and distributed profits; foreign exchange gains...

Other income reflects income arising from the events or separate transactions with normal business operations of the Company, besides the above revenue.

4.17. Borrowing costs

Borrowing costs include interests and other costs incurred directly related to the loans.

Borrowing cost is charged to operation expenses during the period when incurred, except for borrowing costs directly attributable to the investment, construction in progress or production of qualifying assets with appropriate time (more than 12 months) to put into use for the intended purposes or sales, which recorded in value of capitalized assets whether it is subject to the fulfillment of certain conditions of Vietnamese Accounting Standard No. 16 - Borrowing cost. Borrowing costs directly attributable to the construction of fixed assets can be capitalized even though the construction is less than 12 months.

4.18. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities and its tax base in the financial statements and is recognized using the balance sheet method. Deferred tax liability should be recognized for all taxable temporary differences, and deferred tax asset shall be recognized when it is probable that taxable profit will be available against so that temporary differences are deductible.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realized. Deferred tax is recognized in the income statement and recognized in the equity only when it relates to items charged or credited directly to equity.

Deferred tax assets and liabilities are offset when the company has a legally enforceable right to set off current tax assets against current tax liabilities, and when the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

4.19. Related parties

Entities are considered to be related parties to the Company if they have the ability to control, or exert significant influence over, the Company in making financial and operating policy decisions, share key management personnel, or are under common control with the Company (such as VICEM).

Individuals who have the power, directly or indirectly, to vote and thereby exert significant influence over the Company, including their close family members (such as parents, spouse, children, and siblings), are also considered related parties.

Key management personnel who have authority and responsibility for planning, directing, and controlling the activities of the Company - including the Company's directors, managers, and their close family members - are regarded as related parties.

Entities that are controlled, directly or indirectly, by the aforementioned individuals, or in which such individuals hold significant voting rights and thereby have the ability to exert significant influence over the Company, are also considered related parties. This includes entities owned by the Company's directors or major shareholders and those that share key management personnel with the Company.
